CAPT WEBINAR  
December 7, 2017

Prevention, Treatment, & Recovery  
Enhancing Collaboration Across the Continuum

Presenters:
Carol Oliver, Director of Training and Technical Assistance, SAMHSA's CAPT  
Chad Sabora, Co-Founder and Director, Missouri Network for Opiate Reform and Recovery  
Brittany Leek, Program Coordinator, Michigan Office of Recovery Oriented Systems of Care  
Elizabeth Agius, Manager of Community Partnerships, Wayne State University

This training was developed under the Substance Abuse and Mental Health Services Administration's Center for the Application of Prevention Technologies task order. Reference #HHSS283201200024I/HHSS28342002T.

The views expressed in this webinar do not necessarily represent the views, policies, and positions of the Substance Abuse and Mental Health Services Administration or the U.S. Department of Health and Human Services.

This webinar is being recorded and archived, and will be available to all webinar participants. Please contact the webinar facilitator if you have any concerns or questions.
Facilitator

Lourdes Vazquez
Coordinator, Southeast Resource Team
SAMHSA's CAPT

Roadmap for Today's Webinar

Prevention, Treatment, and Recovery

- Identifying Similarities and Differences
- Identifying Opportunities for Collaboration
- Determining “First Steps” for Collaboration
Framing our Discussion: 
*Things to Remember*

- Prevention, treatment and recovery share common goals.
- Prevention, treatment and recovery have distinct sets of services funded through separate sources.
- Collaboration and coordination of activities need to focus on working towards common goals but *cannot include blended or shared SAMHSA funding.*

---

**Presenters**

**Carol Oliver**  
Director of Training and Technical Assistance  
SAMHSA’s CAPT

**Elizabeth Agius**  
Manager of Community Partnerships  
Wayne State University

**Brittany Leek**  
Program Coordinator  
Michigan Office of Recovery Oriented Systems of Care

**Chad Sabora**  
Co-Founder and Director  
Missouri Network for Opiate Reform and Recovery
In which of these areas do you have professional or personal experience?

Prevention?
Treatment?
Recovery?

Identifying Similarities and Differences
The Continuum of Care Model

An Analogy: The Uncertain River
Understanding Key Differences

**PREVENTION**
Focus on *populations* and *environments* (public health approach)

**TREATMENT**
Focus on clinically-diagnosed *individuals* with substance use disorders

**RECOVERY**
Focus on self-identified *individuals* (a person is in recovery when they say they are)

Similarities

**PREVENTION**
- Importance of readiness for change
- Engaging indicated populations
- Serving individuals at risk *and* their family members
- Focus on community wellness
- Evidence-based approaches
Other Differences

- Settings
- Roles and Skill Sets
- Funding Streams
- Approaches

Identifying Opportunities for Collaboration
Raise your hand if you’ve been involved in activities that involved collaborating across prevention, treatment, and recovery.

Prevention Programming in Treatment and Recovery Settings

- For example, substance misuse prevention programs for children of parents who are:
  - In residential treatment programs with their children
  - In recovery
  - Incarcerated and have a substance use disorder
Alignment Across Prevention, Treatment, and/or Recovery

- Efforts by states, tribes, and jurisdictions to:
  - Facilitate community-level cross-continuum collaboration
  - Align efforts to address substance misuse problems
  - Engage in shared strategic planning

Michigan Department of Health & Human Services
Post-Overdose Interventions

• Engage individuals who have recently survived a non-fatal overdose (and their families) in order to:
  o Connect them to future overdose prevention services (e.g., naloxone kit distribution)
  o Raise awareness of available treatment resources in the community
Sharing Resources to Improve Navigation Across the Continuum

• Resources include:
  o SAMHSA’s Behavioral Health Treatment Services Locator website
  o SAMHSA’s Bringing Recovery Supports to Scale Technical Assistance Center Strategy (BRSS TACS)
  o State substance abuse helplines and websites
  o State 211 lines
  o Recovery support websites

First Steps for Collaboration
Levels of Collaboration

- Networking
- Cooperation
- Coordination
- Full collaboration

What level of cross-continuum collaboration currently exists in your state, tribe, jurisdiction, or community?
First Steps to Collaboration

• Determine why
  o Have you identified gaps in the coordination of care for a population you serve?

• Get the lay of the land
  o What prevention, treatment, and recovery services are available in your state, tribe, jurisdiction, or community?

• Establish a relationship
  o Is there a substance use disorder treatment or recovery task force you can join?
  o Do you have a friend-of-a-friend who works in recovery support services that you can invite to lunch?
